Research Interests: Models and Measurement (Industrial Organization/Econometrics)

Education

Yale University 2025 – present
Visiting Student, Graduate School of Arts and Sciences

- Honors: Industrial Organization I (ECON 600), Econometrics IV (ECON 553)
- Audited: Econometrics III (ECON 552), Industrial Organization II (ECON 601)
- In progress, for a letter grade: Measure Theory and Integration (MATH 320)

Stockholm School of Economics, Sweden 2023 – 2025
M.S. Economics, GPA 4.68/5.00; President's List (top 10% of the program cohort)

- Ph.D. coursework (Stockholm University): Econometrics I–II, Applied Empirical Economics I, 2024
- Thesis: "Markups and Public Procurement", awarded the highest grade; advisor: Jaakko Meriläinen
- Exchange semester, Bocconi University, Spring 2025: Optimization, Introduction to PDEs
- Teaching fellow, undergraduate econometrics (BE603 Data Analytics III, 2023) [Evaluations]

Charles University, Institute of Economic Studies, Prague, Czech Republic 2020 – 2023
B.S. Economics, summa cum laude; study average 1.19 (1 = best, 4 = fail)

- Mathematics I–IV (26 ECTS), taught by the Department of Mathematical Analysis, Faculty of Mathematics and Physics, with accompanying analysis seminars: real analysis in one and several variables, implicit function theorem and constrained optimization, linear algebra, eigenvalues and quadratic forms, series and Riemann integration, ordinary differential and difference equations with stability theory
- Thesis: "Markups and Public Procurement", awarded the highest grade; advisor: Matěj Bajgar
- Exchange semester, Maastricht University, Spring 2023: Dynamic Modelling and Dynamic Optimisation

Research

Markups and Public Procurement: Evidence from Czech Construction Tenders 2024
First Place, Young Economist of the Year Award, Czech Economic Society, 2025

- Firm markups are about 15% higher during contract years; the premium declines from roughly 30% in 2006 to 10% in 2021 (production approach, 2006–2021 panel of Czech construction firms)
- Master's thesis (2024), developed further while auditing Industrial Organization II (ECON 601), Yale, 2026
- Replication package in the Applied Economics Incubator's production-function collection (UChicago, 2026)
- Presented: Yale Pre-Doctoral Economics Conference (2026); Czech Economic Society award talk (2025)

Research Positions

Predoctoral Fellow, Tobin Center for Economic Policy, Yale University 2025 – 2027
Research assistant to Prof. Seth Zimmerman and Prof. Barbara Biasi

- *For Prof. Zimmerman:* a price-theoretic model of school size (a district with a fixed budget trades the gain from smaller schools against the overhead each school carries); data infrastructure for a study of New York City's school-funding reform; an archive of school-board meeting records as a research-ready dataset
- *For Prof. Biasi:* federal research funding (HERD) linked to university course offerings, with a field crosswalk and exposure measures; a national database of school-district leaders for a survey; teacher contracts; an OCR dataset from *American Men & Women of Science*; code review of a regression-discontinuity analysis and difference-in-differences diagnostics

Research Assistant, Institute for International Economic Studies (IIES) 2024 – 2025

- *For Prof. Ingvild Almås:* Kizazi Kijacho early-childhood field experiment, 3,600 Tanzanian households: survey data, consumption aggregates, IRT measures of child development; latent-factor modeling with Profs. Orazio Attanasio and Costas Meghir

Research Assistant, IDEA at CERGE-EI, Prague 2022

- *For Prof. Matěj Bajgar:* helped build the Web of Science researcher–publication matched database for IDEA Study 11/2022

Fellowships & Awards

- 8th Lindau Nobel Laureate Meeting in Economic Sciences (nominated by the Royal Swedish Academy of Sciences), 2025
- Scholarship for Outstanding Academic Achievement (grade-average ranking), Charles University, 2023

Short Courses

- math+econ+code masterclasses, Prof. Alfred Galichon (NYU): Discrete Choice Models and Applications in Economics (with Antoine Jacquet), Sciences Po, May 2026; Estimating Large-Scale Matching Models, Collegio Carlo Alberto, Turin, March 2026; both taught online
- Summer course in econometrics, Prof. Magne Mogstad (University of Chicago) with Deniz Dutz; University of Stavanger, June 2025 (remotely)

Skills & Personal

Software: Bash, Python, R, Stata, Julia, MATLAB, Git, LaTeX
Languages: Czech (native); English (fluent); German (intermediate)
Sports: Yale Club Running, Cycling, Swimming, Triathlon, Yale Graduate & Professional Intramurals 7v7 Soccer (Invisible Feet)
