## Education

### Yale University

Visiting Student, Department of Economics, 2025–present

Ph.D. coursework: Industrial Organization I (Honors); Econometrics of Dependent Data / Econometrics IV (Honors); Measure Theory and Integration (Fall 2026)

Audited: Econometrics III; Industrial Organization II

### Stockholm School of Economics, Sweden

M.S. Economics, 4.68/5.00 (5.00/5.00 in core mathematics, microeconomic theory, and econometrics), President's List (top 10% of cohort), 2025

Ph.D. coursework: Econometrics I and II (Distinction), Stockholm University, 2024

Thesis: “Markups and Public Procurement”, awarded the highest grade; advisor: Jaakko Meriläinen

Visiting student (Erasmus+): Bocconi University, data science and AI coursework, Spring 2025

### Charles University Prague, Czech Republic

B.S. Economics and Finance, with Highest Honors, summa cum laude (top 3% of graduates), 3.81/4.00, 2023

Thesis: “Markups and Public Procurement”, awarded the highest grade; advisor: Matěj Bajgar

Visiting student (Erasmus+): Maastricht University, econometrics coursework, Spring 2023

### Standardized Tests

GRE: Quantitative 168/170, Verbal 160/170, Analytical Writing 4.0/6.0

## Fields

Industrial Organization (primary)

Econometrics (secondary)

## Fellowships & Awards

32nd Young Economist of the Year Award (First Place), Czech Economic Society, 2025

8th Lindau Nobel Meeting in Economic Sciences, Royal Swedish Academy of Sciences, 2025

Erasmus+ Scholarship, Maastricht University (NL) and Bocconi University (IT), 2023 and 2025

President's List Award (top 10% of cohort), Stockholm School of Economics, 2025

Dean's Merit Award (excellent academic results), Charles University, 2023

## Research

Predoctoral Fellow, Tobin Center for Economic Policy, Yale University, 2025–26

Research assistant to Professors Seth Zimmerman and Barbara Biasi (economics of education): data pipelines on large administrative datasets, empirical analysis, replication, and manuscript preparation (Python, R, Stata)

Research Assistant, Institute for International Economic Studies (IIES), Stockholm, 2024–25

Kizazi Kijacho early-childhood field experiment, Professor Ingvild Almås: survey data management, consumption aggregates, item-response-theory measures of child development, heterogeneity analysis, power calculations

Research Assistant, IDEA at CERGE-EI, Prague, 2022

Industrial policy evaluation, Professor Matěj Bajgar: cleaned and linked firm-level microdata; first exposure to the procurement and markups literature behind the thesis

| <b>Working Paper</b>              | <p><b>Markups and Public Procurement: Evidence from Czech Construction Tenders</b> — First Place, 32nd Young Economist of the Year Award, Czech Economic Society, 2025</p> <p>Firms holding Czech procurement contracts charge markups roughly 14% higher than non-participants — a premium stable at 12.5–14.3% across nine estimation methods and 33 specifications even as markup levels range from 1.02 to 2.17, point-identified through lagged procurement status in the productivity process (De Loecker 2013), which breaks the Gandhi–Navarro–Rivers non-identification result. Transparency reforms raise measured markups while lowering profitability — evidence of cost discipline rather than rent extraction — and a contract-level welfare decomposition bounds reachable savings at 3.6% of procurement spending versus 12.3% under marginal-cost pricing. Substantially revised and extended during Yale Ph.D. coursework, 2025–26.<br/> Paper: <a href="https://marek-chadim.github.io/chadim_markups_procurement.pdf">marek-chadim.github.io/chadim_markups_procurement.pdf</a> · Code: <a href="https://github.com/marek-chadim/markups-procurement">github.com/marek-chadim/markups-procurement</a> · Talk: <a href="https://youtube.com/watch?v=u0sUwCbN1N8">youtube.com/watch?v=u0sUwCbN1N8</a></p> |
| <b>Teaching</b>                   | BE603 Data Analytics III, Stockholm School of Economics, teaching fellow for Professor Mickaël Buffart, 2023                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
